The graphic and text below show you how –

1. **HRI Hair Therapy Complete blocks DHT; helping to slow hair loss and promoting the conditions to allow better hair growth.** Testosterone is converted to Dihydrotestosterone (DHT) by 5 Alpha Reductase (5AR) Enzyme.
2. DHT attaches to the androgen receptors on the hair follicle.
3. DHT causes increased hair loss; gradually miniaturizing the hair follicle.
4. This miniaturized hair follicle eventually dies and hair loss occurs.

- 1. HRI Hair Therapy Complete™** harmlessly binds to Androgen Receptors on your hair and stops DHT from binding to hair follicles and shrinking/killing your hair.
- With less DHT binding to your Androgen Receptors, your hair starts to grow and resumes the normal cycle of hair growth.
- As less and less DHT binds to your hair, it has the chance to grow into a strong healthy hair. Small hairs can grow bigger and your dormant hair can start to grow again.

- 18 Years in the making!** This product was developed by our team of physicians and medical personnel consisting of a trichologist, a medical technologist and nurse, as well as, one of the World's Largest Nutritional Companies and a large International Hair Loss and Hair Care Manufacturer. In addition, this product is based on hundreds of national and international clinical studies and thousands of our patients in the USA and Europe. Working with all this information we blended one product that has the all the best DHT fighting ingredients and the best essential vitamins, minerals and nutraceuticals for hair health. We then added the key ingredients of a popular hair nutritional which has been proven in numerous studies. **No other product comes even close!**
- Special Saw palmetto berry extract and proprietary phytosterol blend** - Saw palmetto has been proven to block DHT and our product contains the highest level of sterols available in any tablet! 500 MG of saw palmetto berry extract is used in our product. Most other products provide only 200 mg of some kind of saw palmetto. Most products don't even mention how much sterols they use (cheaper saw palmetto berry extract is sold with 1/5th the sterols of our product). This DHT fighting blend makes up a large portion on the **690 MG** proprietary blend of which beta sistosterol is the largest ingredient. The blend also includes the other DHT fighting sterols: campesterol, sitostanol, and campesteranol. **Sterols/phytosterol have been shown to be the reason Saw palmetto blocks DHT and works as well as it does.**
- Other potent DHT Fighters** including pygeum bark, green tea, stinging nettle, and ho shu wu. All have been clinically shown to help fight DHT and work in synergy. Ho Shu Wu also known as fo ti root or Shen Min has been used in China for thousands of years.
- Marine Concentrate** (Shark cartilage and Glucosamine sulfate and Silica) This Viviscal™ like blend has been shown in several Norwegian studies to help stop loss and regrow hair, especially in conjunction with Laser treatments. **People with shellfish allergies should not take this product. They should take our Herbal Propecia called HRI Hair Therapy "AA Plus**
- HRI Hair Therapy Complete Hair Nutritional** - Complete provides all the essential vitamins, minerals & nutraceuticals for complete hair health, including: **biotin, folate, pantothenic acid, sulfur, zinc, iodine, selenium, copper, manganese, and more.**
- Grape Seed Exact** Increases blood flow to the dermal papilla (where your hair grows from) like Minoxidil without side effects.
- PATENTED, SAFE and ensured to be FDA compliant** This product is so unique it's patented and has other patents pending. By working with one of the largest nutritional companies, all FDA regulations for labeling have been met and this further assures the safety and quality of this product. To fully insure the quality of our product, we work only with a company that meets the highest industry standards, namely: achieving an "A Rating" by the National Nutritional Foods Association (NNFA), and Kosher certification by all major authorities. The company is a fully compliant GMP manufacturing and packaging facility and is duly licensed and regularly inspected by State and Federal health authorities.
